

# OWEN WRIGHT

Software Engineer | Full Stack Development

@ help@enhancv.com   linkedin.com   Austin, Texas

## SUMMARY

Experienced Software Engineer with a decade of expertise in full stack development, specializing in creating robust, scalable web applications. Proven track record in leading successful projects and improving operational efficiency.

## EXPERIENCE

Senior Software Engineer 01/2017 - Present  
Google Austin, TX

- Led a team of 10 engineers in the development of a high-traffic web application, improving load times by 50% and user engagement by 35%.
- Designed and implemented scalable backend services using Java and Spring Boot, supporting over 1 million daily active users.
- Conducted code reviews and provided mentorship, resulting in a 20% reduction in code defects and enhanced team productivity.
- Collaborated with product managers and UX designers to develop features that increased user retention by 25%.
- Optimized database queries and indexing strategies, reducing data retrieval times by 40%.
- Integrated third-party APIs, enhancing application functionality and user experience.

Software Engineer 05/2013 - 12/2016  
Amazon Seattle, WA

- Developed and maintained a suite of internal tools that streamlined operations, reducing manual tasks by 30%.
- Implemented RESTful APIs in Python and Flask, improving data integration across various platforms.
- Participated in Agile ceremonies, contributing to continuous improvement in team processes and performance.
- Collaborated with QA teams to ensure high-quality software releases, reducing post-release defects by 15%.
- Authored technical documentation and conducted training sessions, enhancing team knowledge and capabilities.

Junior Software Developer 06/2010 - 04/2013  
IBM Austin, TX

- Contributed to the development of enterprise-level applications using Java and AngularJS, supporting over 500,000 users.
- Assisted in the migration of legacy systems to modern web architectures, improving system reliability and performance.
- Developed unit and integration tests, increasing test coverage by 25% and ensuring code quality.
- Collaborated with cross-functional teams to deliver projects on time and within budget.

## EDUCATION

Master of Science in Computer Science 01/2008 - 01/2010  
University of Texas at Austin Austin, TX

Bachelor of Science in Computer Science 01/2004 - 01/2008  
Texas A&M University College Station, TX

## KEY ACHIEVEMENTS

♥ Employee of the Year  
Awarded in 2019 for outstanding performance and contribution to team success at Google.

★ Project Excellence Award  
Recognized for leading a project that significantly improved application performance and user satisfaction at Amazon.

★ Innovation Award  
Received for developing a cutting-edge tool that streamlined operations and reduced costs at IBM.

✍ Best Mentor  
Awarded for exceptional mentorship and fostering a culture of continuous learning and improvement at Google.

## SKILLS

Full Stack Development · Java · Python ·  
Spring Boot · AngularJS · API Integration

## CERTIFICATION

Advanced Java Programming  
Course on advanced Java concepts and application development, provided by Coursera.

Data Structures and Algorithms  
Comprehensive course on data structures and algorithms, provided by edX.

## PASSIONS

💡 Open Source Contribution  
Actively contribute to open source projects, helping improve software tools and libraries used by developers worldwide.

💡 Tech Community Involvement  
Regularly participate in tech meetups and conferences to stay updated with industry trends and network with other professionals.
